COLLECTIONS

Masita prolongs the availability of her team collections for a year. Team collection Brasil will be available until 2017 and team collection Barça until 2018. The teamlines contain 12 (Brasil) and 13 (Barça) different articles and are available in no less than 10 (Brasil) and 8 (Barça) colour combinations. Masita offers 7 different jerseys to choose from. This makes Masita suitable for both team sports and individual sports, in and outdoor.

FUNCTIONAL

Functionality is the key issue for the development of all our products. Each product in this catalogue has been evaluated, modified or completely updated. The most modern materials are being used to ensure comfort and enhance sporting performance.

SHAPE

The shape of all our products is continuously optimised. Special materials, inserts, stitching, etc. are used to enhance extra comfort. By using special fitted cuts an optimal freedom of movement is guaranteed.

YOUNG & OLD

All our products are available for young and old. Certain products start from size 116 to 3XL. This way the whole club can be uniformly dressed. The team lines are very diverse and include a wide range of articles.

CUSTOMIZATION

We can print your (club) logo, numbers or sponsor(s) on our products in house. We can also design and supply an entire bespoke team outfit.

SERVICE

Our aim is to have 95% of the items in our catalogue permanently in stock. Our extensive dealer network guarantees the best possible service for you.

INTERNATIONAL

Masita is a brand with international appeal. Top performances in Masita clothing are delivered weekly in many countries.

CODE OF CONDUCT

Masita has defined a code of conduct for its suppliers and supervises during frequent visits their compliance with the defined standards. As a condition of doing business with Masita, the supplier shall implement and integrate this Code of Conduct. Suppliers commit themselves to a respectful relationship with employees and commit themselves to guarantee safe and healthy working environment. The weekly working hours for employees are limited and an appropriate remuneration has to be ensured. Immoderate overtime hours as well as forced labour or child labour are strictly prohibited.

SAFETY - REACH

(Registration, Evaluation, Authorisation and Restriction of Chemicals) EG Nr. 1907/2006

All Masita products conform to all prevailing norms regarding toxin prohibition and safety standards and are tested regularly according to their compliance with these norm and standards. All suppliers guarantee that all fabrics and accessories comply with the requirements of the European Chemicals Regulations EG Nr. 1907/2006.

IMAC

(Independent Monitoring Association for Child Labour in Pakistan)

To supervise the compliance with prohibition of child labour, the manufacturing plants of Masita balls are inspected and certified by IMAC. IMAC monitors, with unannounced inspections, the compliance with prohibition of child labour as well as the realisation of the guidelines for humane working conditions.

**AQL 2.5
QUALITY STANDARD AND CONTROL**

Starting already at the product development phase we work hand-in-hand with our suppliers to provide highest quality for every single product. These requirements are inspected during very intensive examinations and tests by independent control institutes. The quality of each product is supervised and optimised several times during the manufacturing process. When the goods are arriving at Masita further inspections are made before the goods will be delivered to our customers.

ENVIRONMENT

Our environment is the base for tomorrow and saving energy is a must for everybody who wants to preserve this planet. Masita has started several projects to save energy and water. For example during non-working times such as mealtimes the lights, the air-conditioning and the machines are turned off in the production rooms as nobody stays inside. Also optimisations in the cutting process and using production factors more effectively help to avoid scrap and therefore save raw materials and energy. Many more initiatives are planned this year.

TEXTILE TESTS

All Masita fabrics go through numerous tests and evaluations to check the physical characteristics, particularly fastness to abrasion and resistance to tearing. To avoid colour bleeding and discolouration all fabrics are tested permanently during the sample process and before production. All prints and logos are tested for stability. Before serial production several stages of sampling are realised and the final pre-production samples are checked again finally to provide best quality products.

MASITA TECH SYSTEM

Optimised different fabric concepts and details combine highly technical materials with modern tailoring for an optimum in look and feel.

CLIMA-TECH

ClimaTech has an extra "ultimate dry-comfort treatment" which provides optimum perspiration regulation and also makes the fabric very breathable. The use of technical yarns and special treatments of fabrics provide a maximum of temperature regulation and vapour management properties.

DURA-TECH

Dura Tech is especially designed and made with high durability in mind and is pilling free. For an extra long lasting use in all sportive activities.

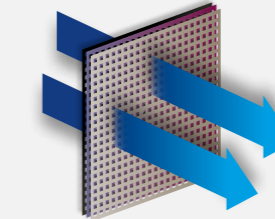

COMFO-TECH

ComfoTech is a very light technical polyester fabric. It has a subtle look, is very breathable and has a pleasant feel. Uncompromised materials with optimum performance.

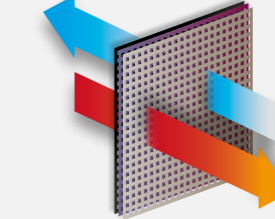

AQUA-TECH

AquaTech stands for a water-repellent material, especially designed for active sports. Despite its lightweight design, the highly functional coating prevents rainfall from reaching the inside.

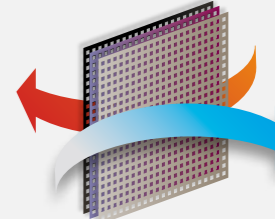

KEEP DRY

Moisture from perspiration is carried to the outside of the material, which dries quickly thereafter. Protection against hypothermia and a comfortable feeling.

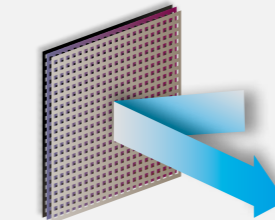

KEEP COOL

A breathable material that has excellent perspiration regulation qualities and provides optimised body temperature.

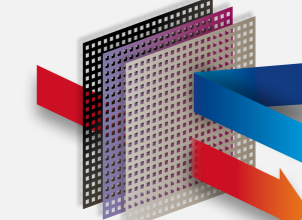

KEEP WARM

A thermal insulation layer protects against the cold and keeps the body warm, even at low temperatures.

STOP WIND

Material with an isolation layer protects the body against wind and prevents from hypothermia.

STOP WATER

Material with a waterproof outer layer together with sealed seams prevents from rain penetrating. The material is also very breathable and therefore expels excess perspiration quickly.

PARTNERSHIPS 'TO LIVE AND LET LIVE'

Masita is always interested in long term and cooperative relationships with its partners. A fair, "live and let live" approach is the basis for every action. Due to personal partnerships during many years it is possible to guarantee social responsibility and fair working conditions. Furthermore the quality of Masita products profits in a sustainable and measurable way, by involving our partners in the supply chain by common decision-making process.

THE WINNING SPIRIT

THE WINNING SPIRIT

Success is closely connected to a strong spirit. This is not only valid for sports. The Masita team and our partners are also inspired by this winning spirit with the intention, not to be content with achieved targets, but to continually strive for better.

BARÇA TEAMCONCEPT

The characteristic attribute of our new Barça line is a striking "8-stripes" design. Enriched by contrasting pipings and numerous details we can present a stylish collection which is completely state of the art. Functionality was the key issue for the development of this team line. As a result Masita manages to combine functionality with superior design.

The Barça collection is available in 8 different colour options and can be perfectly combined with several standard items from the existing Masita range.

A TRUE TEAM IS THE MOST IMPORTANT

NEVER CHANGE A WINNING TEAM

Sir Alfred Ernest Ramsey
(Coach of the English National Football Team winning their
first and only World Cup in 1966)

This quotation is very meaningful for Masita.
Masita is proud of its friends and partners worldwide,
being part of a winning team and having always in mind that
only team spirit, teamwork and helping each other provides
long-lasting success and sustainability.

BRASIL TEAMCONCEPT

Our team collection Brasil is characterised by a timeless, straight design. Functionality was the key issue for the development of this team line. All products are made of technical materials, for example to regulate heat and perspiration. Masita has created a modern shape so that any athlete, young or old, can experience fantastic comfort.

The Brasil collection is available in 10 different colour options and can be perfectly combined with several standard items from the remaining range.

New items in the Brasil collection are the rain sweat, the leisure shorts and a backpack with shoe compartment. The Brasil collection is available until 2017.

JERSEYS AND MORE

FORM FOLLOWS FUNCTION

SHAPE

Extremely high-class sporty cuts and special insert solutions guarantee an optimal freedom of movement.

MATERIAL

Breathable functional materials (ClimaTech) regulate the body climate ideally. Side panel inserts and back parts made of extra breathable mesh fabric.

DESIGN

All jersey lines reach highest state-of-the-art design standards in functionality and workmanship.

COLOURS

Available in all standard team colours and additional subtle colour combinations

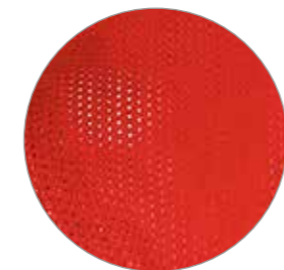

CUSTOMIZATION

The front and back of all jersey lines offer optimal space for printing club and sponsor logos generously and perfectly.

Design "8 stripes"

CREATE YOUR OWN DESIGN

SPECIAL MAKE UPS

Let Masita create your own professional and individual Team kit. From a logo print to a complete kit, to your own individual club design, the possibilities are almost endless. Furthermore, we can produce numerous merchandising items for you individually. See the following pages for opportunities of "Special Make Up" (SMU) products:

JERSEYS

To create your custom-made jerseys, there are many options. From design, through to various collar and panel shapes, up to processing details and of course the colour combinations, there are several options. Alternatively, you can completely create your own jersey.

SHORTS

In addition to SMU jerseys, we also offer to design and produce SMU shorts. The designs of which can be just as numerous as the jerseys.

SOCKS

To make your own team kit complete, we can produce socks with your own club logo incorporated within the design. These are all Premium quality.

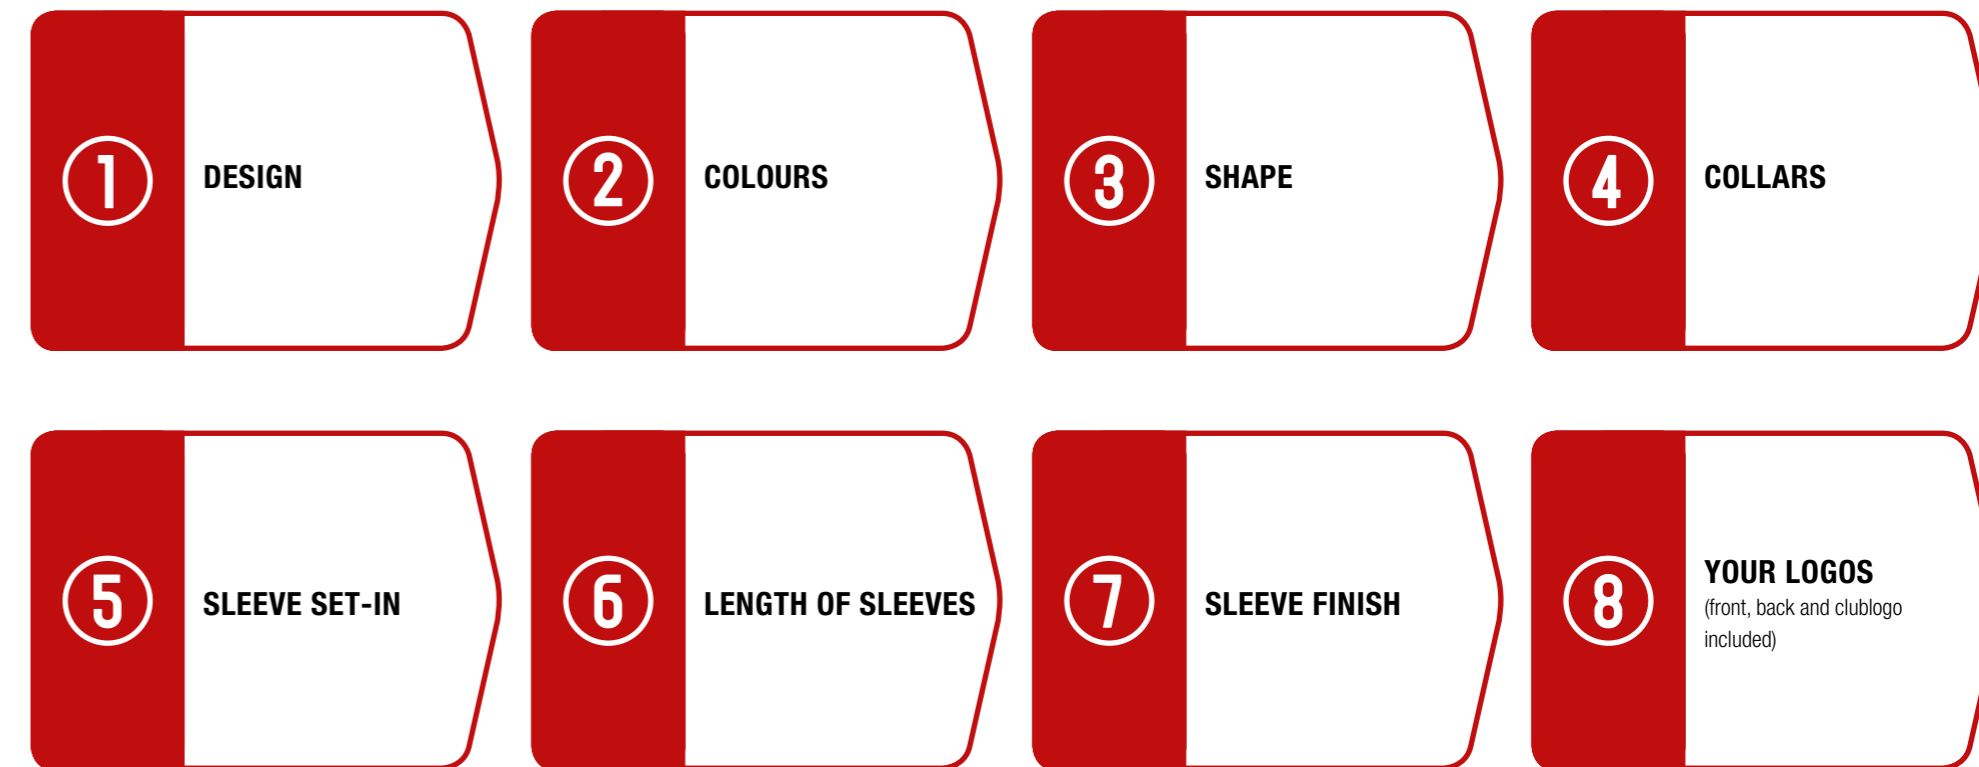

MERCHANDISING

If your club wants to have complete exclusivity, we also offer matching merchandising products for you. From key-chains to scarves, Masita ensures that the fans are well equipped!

8 STEPS TO PERFECTION

SMU SHIRTS AND SHORTS

To create your custom-made jerseys, there are many options. From design, through to various collar and panel shapes, up to processing details and of course the colour combinations, there are several options. Alternatively, you can completely create your own jersey.

REQUIREMENTS

- A binding order for a minimum of 50 pieces (for an order of both children and adult sizes, it needs to be 50 pieces of both options).
- A choice from 14 Masita standard colours in any combination.
- All logos must be provided in vectorized form (AI or EPS files).
- All logos are durable and integrated in the design in premium quality.
- For SMU Jerseys, Masita's standard sizes will apply.
- Delivery will be 8 weeks from approval of design.

1 DESIGN

Choose your favourite jersey from the 12 present designs.

	5 / 350g	340 - 360 g	680 - 700 mm	0,6 - 0,8 bar
	5 / 290g	280 - 300 g	680 - 700 mm	0,6 - 0,8 bar
	Indoor	410 - 430 g	610 - 630 mm	0,5 - 0,7 bar

MAINTENANCE TIPS MASITA SOCCER BALLS

STORE
 Dry, at least 15 °C. For longer storage release a bit of air to spare the seams and bladder. Do not store near a source of heat.

CLEANING
 Wipe with damp cloth. Never polish with leather fat. (Soccer balls do not consist of leather anymore.)

VALVE OIL
 Regularly apply some drops of valve oil in valve. Protects the valve and ensures a longer live.

INFLATING
 Moisten nipple (or apply valve oil in valve).

LET US PERSONALIZE YOUR PRODUCTS

PLOTTED TRANSFERS

Plotted transfers are used for logos and sponsoring, as well as in printing of club names and player names. The plotter cuts the texts / designs in mirror writing into foil and then removes all redundant parts. The cut out design is pressed under certain temperature and pressure conditions. After printing, when cool, the transparent paper is removed. There is a wide range of application for plotted transfers.

SCREENPRINT TRANSFERS

Screenprint transfers are suitable for prints with higher quantities. A pattern is made in advance, then ink and glue are directly applied to a transparent foil. The screenprint logo is then pressed under certain temperature and pressure conditions. After printing, when cool, the transparent paper is removed. There is a wide range of application for screenprint transfers.

DIGITAL PRINT TRANSFERS

Digital printed logos are used for multicoloured and very detailed logos with small quantities. The logo is printed on a special foil similar to usual printers. The foil has to dry for 24 hours. The cut out design is pressed under a certain temperature and certain pressure. After printing, when cool, the transparent paper is removed. There is a wide range of application for digital printed transfers.

EMBROIDERED LOGOS

Embroidery is a high quality textile finishing. Embroidered logos are highly durable and resistant to frequent washing. Your logo file is converted to a valid file type for our embroidery machines before it is embroidered on the product of your choice with (up to 10) vivid and bright colours.

FINISHING

Masita doesn't only provide you with your premium teamwear. As an authentic teamwear-brand Masita also has the possibility to finish your products. The finishing is done within the company. This guarantees a high quality finishing and fast delivery. We develop high quality transfer applications and embroidery for textiles and accessories. The different technologies offer many options for customisation of your product and go hand in hand with design and production. Our technical equipment is constantly adapted to the latest requirements. See for yourself!

PLOTTRANSFER

FLEX TRANSFERS STANDARD

- smooth with soft touch surface
- suitable for logos and letters with little detail und greater surface
- extremily durable and colourfast
- very suitable for small quantities

ATTENTION!

The Masita measurement tables are developed on base of many years experience and can be used as guidelines when buying Masita products. Returning goods by cause of false measurements can only be taken back in the original packaging. When information is being printed or flocked on these articles, when they are washed or being treated, we cannot exchange them. To avoid any discolouring, we recommend the use of high quality material with a "blackout protective coating" when (flock) printing. Differences in colour can occur between the photos in this catalogue and the original articles because of technical reasons such as photography, reproduction and printing. Masita reserves the right to change the duration of collections, as well as the materials and/or composition of articles at any time.

All prices are in Euro's, errors and misprints are subject to correction.

MASITA ONLINE

www.masita.com
