Our guarantees cover our products for normal domestic use, they cover the material structure of the product against manufacturing defects for the guarantee period stated and are only applicable in the UK and ROI and are subject to certain exclusions and terms & conditions, which does not affect your statutory rights. They do not cover: non domestic use, failure to install correctly, fair wear and tear, electrical failure, moving parts which are likely to perish over time (such as rubber seals), neglect or misuse.

Throughout this brochure all measurements are given in millimetres. Every effort has been made to ensure the accuracy of all information in this publication, however all measurements should only be used as a guide and final checks made before purchase. We must also reserve the right to amend details, prices and specification without notice. Whilst we have endeavoured to maintain accuracy throughout this publication all images are for illustration purposes only and are subject to change. Colour reproduction is as accurate as current printing methods allow. E&OE

pisa slate effect shower trays

These low profile 25mm deep shower trays are made from a natural stone resin with a gel coat slate textured finish, providing anti-bacterial properties and a grade 3 anti-slip rating. If required they can be cut to size using a diamond cutting wheel and although they are extremely tough, should they become damaged a repair kit is also available.

A low profile shower base installed in a suspended timber floor

a total wetroom solution

Our shower bases, wall and floor boards, seating and furniture are all made from high grade extruded polystyrene (XPS) which has been coated with a special polymer modified cement into which is bonded a fibre glass mesh. The result is a strong, totally waterproof, thermally insulating, incredibly lightweight and easy to cut material that is transforming wetroom design.

concealed valves

A flexible showering solution, concealed valve packages can be configured with different components depending on your preference.

Choose one of the packages overleaf or design your own bespoke solution from the valves and components on pages 64-67.

Valves are available 1, 2 or 3 way and which one you pick depends on the number of components you want to use.

So first choose the valve that meets this requirement and then add your components, you can choose from shower heads, handsets, slide rail kits, bath spouts & bath fillers.

introducing...

super-strong **ACRYLIC**

super-strong ACRYLIC has many benefits over standard acrylic. Made using the latest materials and techniques it produces a bath that is as strong as cast iron but is warmer to the touch and retains heat longer than a standard bath.

Smooth high gloss acrylic is solid in colour so it won't rub off or fade.

Fully encapsulated high strength baseboard.

A special mix of polyester resin seals in the baseboard, increasing rigidity and acting as a thermal layer so the water stays warmer longer.

Most of our acrylic baths are available with super-strong ACRYLIC. The extra strength of our super-strong ACRYLIC makes it ideal for use in a shower bath where the weight is concentrated at one end, this puts extra strain on the structure of the bath but with super-strong ACRYLIC the bath remains strong and rigid.

underfloor heating

Electric underfloor heating is the ideal addition to any floor tile. Safe to use in the bathroom, our systems can be controlled with a simple multi-function LCD control panel with six programmable functions.

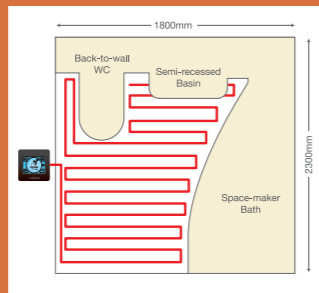

Underfloor Heating Loose Cable (150w/m² at 75mm spacings)

25

Length	Area Covered	Heat Output	Price
26m 17086	1.5 – 2.5m ²	300w	£130
41m 17087	2.25 – 3.75m ²	450w	£153
