

Choice Premier® Product Guide

Cabinets that function the way you do.™

Choice Cabinet is the premier supplier of all wood cabinets with custom features at substantial savings. With over 25 years of cabinetry experience, we know what it takes to build a quality and attractive cabinet for every room of your home.

A quality cabinet is judged by two distinct characteristics - beauty and strength. With our Choice Premier® line of cabinetry, we have strategically identified the most popular door styles and finishes and then we designed our lineup around those. Our door styles range from traditional to contemporary and are available in an ample variety of finishes and colors.

Choice cabinetry is made of only the finest materials - no particle board, glue, or staples, and each cabinet is built to order right here in North America by trained professionals.

We like to refer to our cabinets as *affordable elegance*, because your dream kitchen shouldn't have to be just a dream.

For cabinets that function the way you do, make the right choice.

CAMBRIDGE

The subtly aged look of the Cambridge door is achieved through the application of a warm amber stain and brown glaze burnishing effect. The soft curvature of the door profile and the trim details are accented by the burnishing effect, evoking a truly custom inspired look. The inherent beauty of the hardwood maple remains subtly transparent through the warm tones of the stain adding authenticity to its overall aesthetic. Cambridge is a full overlay style door and drawer with a matching solid maple raised center panel design on both. The solid hardwood maple frames are joined with mitered construction for quality and durability.

KCMA
Certified

RENAISSANCE

KCMA
Certified

This painted creamy white finish is accented by a hand applied caramel glaze into the recesses of the door and drawer profile. This glaze technique is specific to the recesses of the door and drawer profile and does not coat the overall door. Due to the nature of the authentic hand applied glazing, each door may vary slightly in its finished appearance adding to the overall beauty of the design. Renaissance is a full overlay style door and drawer with a matching maple veneer raised center panel on both. The solid hardwood maple frames are joined with mitered construction for quality and durability. This door profile is identical to the Kensington and both pair well within the same visible space.

KENSINGTON

The warm dark walnut inspired stain applied to the solid hardwood maple Kensington door provides a rich furniture-like style to any space. The inherent beauty of the hardwood maple remains subtly transparent through the warm tones of the stain adding authenticity to its overall aesthetic. Kensington is a full overlay style door and drawer with a matching solid maple raised center panel design on both. The solid hardwood maple frames are joined with mitered construction for quality and durability. This door profile is identical to the Renaissance and both pair well within the same visible space.

KCMA
Certified

HAMPTON

KCMA
Certified

This crisp white painted finish is ideal for a variety of design styles from simplistic casual to modern transitional. The Hampton is a full overlay door style with a wood veneered recessed center panel design and decorative five piece drawer front to match the door. Both door and drawer boast solid hardwood maple frames joined by mortis and tenon and detailed with a subtle profile to the inner and outer edge. The recessed center panel is wood veneered for quality and durability.

TUSCAN

A base of ginger colored stain on hardwood maple is accented by a hand applied black onyx glaze. This glaze technique is specific to the recesses of the door and drawer profile and does not coat the overall door. Due to the nature of its authentic hand application, the Tuscan will offer a unique range of results adding to the overall beauty of the style. Tuscan is a full overlay door style with a solid maple raised center panel design complemented by a decorative five piece drawer front with a maple veneered recessed center panel. Both door and drawer front boast solid hardwood maple frames joined by mitered construction for quality and durability.

Certified

VISTA

KCMA
Certified

This dark brown stain with deep chestnut hues adds richness to the hardwood maple used in this shaker style door while allowing the beauty of the natural wood to remain subtly visible. The Vista is a full overlay door style with a decorative five piece drawer front matching the door design. Both door and drawer boast solid hardwood maple frames joined by mortis and tenon construction and wood veneered center panels for quality and durability. Vista offers a simplistic design for a modern or transitional space.

ASPEN

The cool white paint finish applied to this modern shaker style door is a ready canvas for your design personalization. Aspen is a full overlay door style with a recessed wood veneer center panel on both the door and drawer fronts. Solid hardwood maple frames remain simple in design and are joined by mortis and tenon construction for quality and durability. The Aspen door style offers a simplistic design for a modern or transitional space.

BARRINGTON

KCMA
Certified

The lavish look of the Barrington door is achieved through the application of a dark cherry stain and glaze burnishing effect. The soft curvature of the door profile and the trim details are accented by the burnishing effect, evoking a truly custom inspired look. The inherent beauty of the hardwood maple remains subtly transparent through the deep tones of the stain adding authenticity to its overall aesthetic. Barrington is a full overlay style door and drawer with a matching solid maple raised center panel design on both. The solid hardwood maple frames are joined with mitered construction for quality and durability.

ACCESSORIES

Choice Cabinet accessories make it easy for you to customize your cabinetry as well as keep your kitchen neatly organized. Whether you want to accessorize the look of the cabinet or accessorize how it functions, make sure to explore all of the options that we have available!

ROLL OUT SHELVING

With their finished, all wood and dovetailed construction, these shelves are made to last. They also come with soft close, under-mount glides.

SOFT CLOSE TRASH PULL OUT

Our Trash Pull Outs are extremely durable and have a finished, all wood frame. We offer several sizes to do the job - big or small.

CUTLERY DIVIDER

Our all wood, dovetailed cutlery dividers come prefinished and are designed for easy installation into a number of drawer sizes.

SOFT CLOSE HINGE

Make our 6-way adjustable, concealed hinges even nicer by adding the Soft Close option to any door.

DECORATIVE HARDWARE

Often considered as the “jewelry” on your cabinets, hardware can complete the look and functionality of your kitchen. We offer a variety of knobs, pulls, and handles that complement each of our door styles. Let us help you select the right choice of hardware to give your kitchen the attention it deserves.

CONSTRUCTION

We take a lot of pride in the quality construction and various features that you will find in our cabinetry. Built from the finest materials and hand assembled, Choice cabinets are the perfect blend of strength and beauty. No matter where you use them in your home, we know that your cabinetry needs to stand the test of time. That's why Choice Cabinet makes cabinets that function the way you do.

KCMA[®] CERTIFICATION

The Choice Premier[®] Series is now certified by the KCMA (Kitchen Cabinet Manufacturers Association) and complies with the requirements of ANSI/KCMA A161.1. This certification is referenced by U.S. government agencies, architects, builders, remodelers and other specifiers. Cabinets that comply and bear the KCMA certification seal are recognized in the marketplace as a quality product able to perform after a rigorous battery of tests simulating years of typical household use.

CARB2 CERTIFICATION

Choice Cabinet is proud to be a CARB Certified kitchen cabinet manufacturer. Our cabinets comply with the rules and regulations of composite wood products by the California Code of Regulations.

TIMELESS QUALITY

The decision to go with Choice cabinetry isn't just a purchase, it's an investment. We believe in offering a quality product that is as strong as it is beautiful. We also believe that your cabinets should last a lifetime, not just a set number of years. Our Lifetime Limited Warranty guarantees that your investment is protected for as long as you own it.

I. Description of Warranty

This warranty applies only to the original consumer purchaser for as long as they live in their home and is not transferrable. Choice Cabinet warrants all of its Choice Premier cabinetry with a Lifetime Limited Warranty. In addition, all drawers, shelves, roll out trays, and any mechanical components will be free from material defects and workmanship. In the event that any Choice Cabinet product fails during the course of normal use, Choice Cabinet will either repair or replace the defective product at its own discretion and as determined solely by Choice Cabinet.

II. Intended Use of Product

To be covered by this warranty, the product must only be used for its intended purpose(s). Cabinets that have been improperly stored, installed, misused, modified, abused, mishandled, and/or subject to excessive moisture or extreme temperature and humidity levels are not covered under this warranty. Whether the work was performed by a contractor, Choice Cabinet authorized dealer or yourself, any expenses involved in the shipping, removal, installation, or consequent damage of the defective product is not covered under this warranty. This warranty does not apply to products installed in mobile homes or recreational vehicles.

III. Anticipated Variance in Product

The Choice Cabinet warranty only applies to product defects and does not apply to properties of natural wood that are subjective in natural wood species. Anytime you have a natural wood product, occurrences such as pinholes, knots, and variance in color or grain must be anticipated and, therefore, are not covered under this warranty. Prolonged exposure to light, heat, or aging may cause a change in color. Any event caused by environmental or chemical effects to the product are not covered under this warranty.

The properties of natural wood are such that it can react to climactic or humidity changes found within most homes. As much as half of the weight of freshly cut wood is water. Choice Cabinet doors and face frames are manufactured from solid wood that has been carefully kiln-dried, retaining just enough moisture for proper construction and finishing. The center panels of some of the Choice Cabinet doors are wood and some are medium density fiberboard. As a product of nature, solid hardwoods continue to react to their surroundings long after manufacture. When wood cabinet doors are in a warm, moist environment (high relative humidity), the wood expands. In a dry, colder environment (low relative humidity), the wood will contract. Expansion and contraction can be controlled but never eliminated even with humidity regulation.

Door panels are prone to minor expansion and contraction as seasonal temperature and humidity changes occur in a home. The contraction or shrinkage of the center door panel during low humidity periods may result in the appearance of an unfinished line along the edge of the center panel. Choice Cabinet does not consider the appearance of an unfinished line as a product defect and will not replace doors due to this situation. It is recommended that a humidity control system is incorporated in a home to reduce the possibility of expansion and contraction in wood products. Touch-up markers are made available through your authorized Choice Cabinet dealer to cover this edge line. Often times, touch-up may only be necessary within the first year.

All of the doors for Choice Cabinet cabinetry are manufactured in moisture-controlled environments under precise tolerances. Although slight door warpage can be common in one or two doors within a newly installed kitchen, any door that has not hung through a complete heating and cooling cycle has the possibility of warping. Slight warpage can be eliminated through adjustments in the 6-way adjustable hinges. Any warpage that exceeds the capability of adjustments to the hinges should be further examined by removing the door from the cabinet and placing it on a flat surface. Hinge spacers are also available in cases where the warpage cannot be eliminated through hinge adjustments. Hinge spacers are available through your authorized Choice Cabinet dealer. If the warpage cannot be eliminated through hinge adjustments or the use of hinge spacers and only if the doors have hung through a complete heating and cooling cycle and all of the cabinets are true and plumb, will Choice Cabinet consider replacement.

Choice Cabinet offers several types of painted finishes on cabinetry. Painted finishes are acutely different from stained finishes. Since normal movement is typical on wood products, certain climatic conditions can cause finish breaks, recesses, and joint and panel lines. Joint separation can be more visible on mitered doors. Consequently, in places and environments of extremely high or extremely low humidity, painted finishes are not recommended. Joint

TIMELESS QUALITY

lines and variations are common attributes of painted finishes and will not be considered sufficient reasons for product replacement. An open joint line is not considered a defect and is not covered under this warranty. Proper humidification of homes in extremely dry environments is strongly recommended.

Some of our products have glaze finishes. Since glaze detailing is hand applied then hand wiped off, glaze may "hang up" or remain in any corners of the door or drawer profile. Because the glaze is a hand applied procedure, detailing can differ from piece to piece and is not considered a defect and is not covered under this warranty.

Discoloration will develop on doors, drawers, and cabinet parts after continued exposure to tobacco smoke. This is remarkably apparent on white and lighter finishes. We do not warrant discoloration in our products due to exposure to smoke of any kind.

IV. Product Repair or Replacement

Throughout the duration of the warranty period, Choice Cabinet's sole obligation is to repair or replace any defective product for no charge at the discretion of Choice Cabinet. This warranty only applies to cabinets and affiliated products sold by Choice Cabinet, offered through an authorized Choice Cabinet dealer. In the event that a claim is filed after the original product has been discontinued or cancelled, Choice Cabinet will honor the warranty, at their discretion, subject to the availability of the product, by either:

- Repairing or replacing the defective product with a new product of the same style.
- Repairing or replacing the defective product with a product of equal value and complementary style in order to maintain the appearance of the original cabinetry purchase.

An exact match between the finish of the original purchased product and the replacement or repaired product is not guaranteed.

V. Rights of Consumer

There are no other warranties, disclosed or indicated, associated with this product. This document serves as a description of the consumer's definitive legal rights within the transaction and is the exclusive warranty of Choice Cabinet. The exclusion or partial limitation of contingent or substantial damages is not permissible in some states. The consumer may also have further rights from state-to-state which are not cited in this warranty.

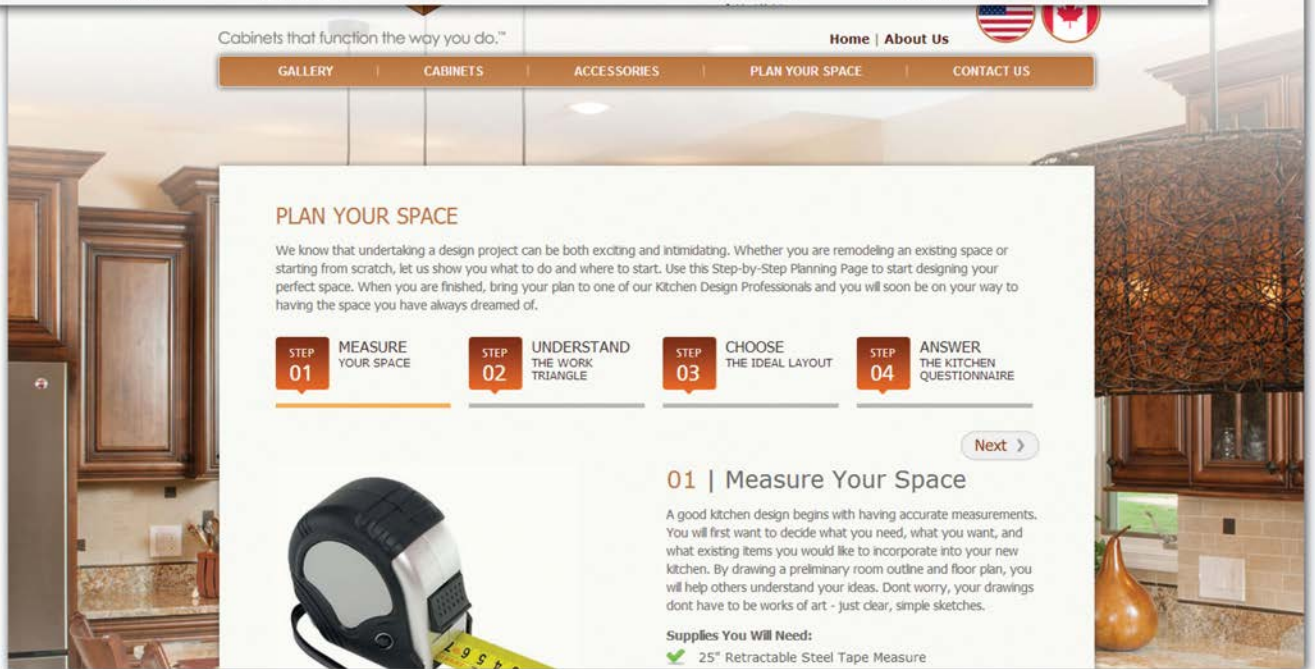

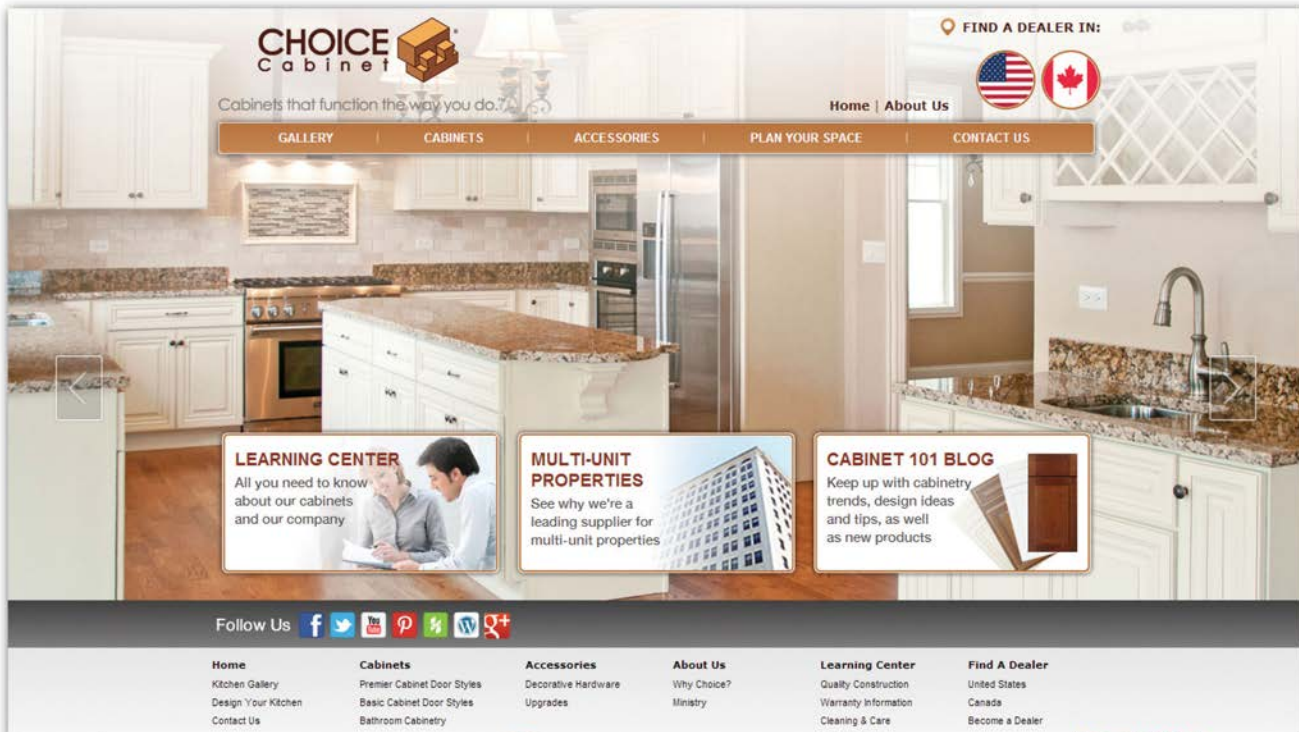

VI. Submission of a Claim

All claims must be submitted to the authorized Choice Cabinet dealer where the cabinets were originally purchased. Claims are to be submitted in writing. Every claim must include a dated copy of the original sales receipt as a proof of purchase. Unless and until the product is specifically requested by the Choice Cabinet claims department, please do not send the defective item(s).

ONLINE SUPPORT

Our website contains a wealth of information about the complete line of products we carry. You'll find galleries of finished projects, door style, hardware, and accessory offerings, a learning center, and the easy to use Plan Your Space feature. Visit choicecabinet.com and let us show you all you need to know in order to be confident in your decision making.
