## Introduction

Welcome to the new range of Gilbert Rugby teamwear, balls and equipment

Widely acknowledged as one of the leading brands in world rugby, all of our products are designed to a quality and standard that you would expect from Gilbert.

From the World's major tournaments and leagues to just about every major rugby playing country we are also proud supporters of rugby development.

The Gilbert range has been designed to meet the requirements of all players and coaching staff, providing on the pitch style and performance. In meeting the needs of players and also the demands of team management, the collection provides teamwear flexibility and high performance functionality for clubs and schools, whatever your requirements.

**We look forward to being of service.**

**160th Anniversary**

Grays since 1855 – 160 years in sport

# Sublimated Shirts

Our performance sublimated shirts are made of the highest quality fabrics, with moisture management and breathability functions to keep the body cool and dry. Balancing eye-catching style with high performance benefits. Now available in a range of collar options to suit. Made to order only in 8 weeks from order acceptance. Minimum order quantity 12.

## Fit Styles

### CLUB CUT

Traditional fit, comfortable for all shapes and sizes of player. Ideal for matchwear or training.

### PRO CUT

This slimmer-fitting jersey has been developed in line with the requirements of the game and offers a streamline fit.

## Collar Styles

### VIRTUO COLLAR

Gilbert's signature collar incorporating stretch fabric at the back neck for added wearer comfort.

### Y COLLAR

This increasingly popular and functional Y collar sits flat around the neck whilst allowing free movement at the front.

### PREMIUM COLLAR

Made from the same shirt fabric this collar sits flush all around the base of the neck. A snug fit with flexibility.

### LOOP COLLAR

Made of one length of tape, the loop collar offers a classic rugby styling, combined with durability and performance.

### MANDARIN COLLAR

Our mandarin collar is made using main body fabric and is a stand-up collar style, with reinforced twill-taped placket and button.

### TRADITIONAL COLLAR (Available in White only)

Twill fabric is used to create a traditional rugby shirt collar with reinforced twill-taped placket and button.

## Grip Pattern

Available on request.

## Sleeves

Available in short sleeves only.

PVC poles with flexi foot spike. Sold in sets of 12 including bag

Code: 89969603

# Training Equipment

All Gilbert Pitch kits and contact equipment is made to order in our own factory from the highest quality materials. For a simple design you can choose a base colour from our stock vinyls shown below or, should you wish to include more colours, we can produce any design using a state of the art digital printing process. We will guide you through your choice.

All equipment is made with high density foam covered with PVC in a high quality finish that can be wiped clean.

## POST PROTECTORS

### FEATURES:

- Any print design possible
- Post protectors are available in 3 post diameters, A (<10cm), B (10-15cm) & C (15-22cm)
- Made to order in 6-8 weeks from order acceptance

Width of face for post diameter			
Pad Height	Post Diameter		
	A (<10cm)	B (10-15cm)	C (15-22cm)
Junior's (138cm)	26cm	26cm	30cm
Senior (183cm)	26cm	26cm	30cm
Super Size (183cm)	51cm	51cm	51cm
Premier Size (200cm)	51cm	51cm	51cm

## 1 MOON FLAGS

### FEATURES:

- 34.5cm Wide x 34cm High

## 2 CORNER POLE PROTECTORS

### FEATURES:

- 123cm high by 10cm wide

## 3 CORNER POLES OR SPRING LOADED CORNER POLES

### FEATURES:

- Standard or spring-loaded available (Spring-loaded returns to upright position on contact)
- 5cm diameter

## STOCK VINYL COLOURS AND DIGITAL PRINT

We hold a range of vinyl colours as below to which we can overprint Club, School or Sponsor logos. We can print your specific Club, School or Tournament colours in any design onto all Gilbert Pitch kit and contact equipment.

### CUSTOM COLOUR PALETTE:

# Size Chart

## Finding the perfect size isn't always easy

The fit of your clothes depends on many things, including the cut, fabric, styling and even the undergarments you are wearing! By following our body guide and how to measure guide, we hope to find you the best possible fit.

It is always suggested that you measure more than once, as your posture changes when you move and sometimes affects the measurement you take.

## MEASURING

### CHEST CIRCUMFERENCE

Measure all the way around- taking the tape approximately 2.5cm from pit of arm, around the fullest part of the chest. Try to keep the tape level.

### WAIST CIRCUMFERENCE

Measure all the way around- taking the tape around the natural waist (this is the narrowest part of your waist). Try to keep your tape measure level.

Our trousers and shorts are elasticated so there is always plenty of room for movement here - if you are confused use the hip measurement.

### LOW HIP CIRCUMFERENCE

Measure all the way around taking the tape around the fullest part of the bottom.

Try to keep the tape level.

### INSIDE LEG

Measure from the top of the inside leg to bottom of your heel. Please remember you can always take a trouser up if they are a little long, try turning the waistband or sewing the hem.

### GENERAL TIPS

1. Measure yourself wearing underwear - do not measure over clothing.
2. Stand straight and keep both feet on the floor.
3. Make sure the tape measure is kept level.
4. Ask a friend to help take your measurements (its sometimes easier to have help).

Our ranges are designed with layering in mind. If you buy a jacket for your body size, you can be sure you will be able to fit a top and a light sweater underneath.

All measurements are an approximate guide.

# Order Procedures

Below we have laid out clearly the processes you will experience and the requirements that you will need to fulfil in order for us to quickly and accurately action your teamwear order. Each option has different complexities and requirements, which are detailed below. Throughout the process, your local Gilbert representative and the design team will make sure that you are kept up to speed at every stage of the production process, prior to delivery.

**For more detailed information, to place an order or to discuss a specific requirement call 01580 883120**

## OPTION 1

### SUBLIMATED TEAMWEAR

Our team will work with you, creating a series of design options for you to choose from. They will guide you through the entire process making sure that you are kept informed at all times.

#### 1. Design consultation

You can choose a set design or we can create a new design and/or work with you, using your existing strip as the basis for your teamwear design. If you would like us to develop a completely new and unique design, there may be an extra charge.

#### 2. Supply crests and logos in digital format and advise quantities and personalisation

All artwork for crest/logos and sponsor logos must be supplied in digital format; preferably vector EPS files, PDF, AI/CDR formats or a DST file for embroidery. If these files are not available, there may be a re-draw charge. If you require personalisation (e.g. numbers/player names/initials) please send us written details for each size of garment you require.

#### 3. Approval of Final Digital Proof and Proforma

Once you have agreed the design and logos, we will ask you to approve a Final Digital Proof ("FDP") and a Proforma. The FDP shows you the garment, with all logos/crests, the quantity required by size and any personalisation required. The Proforma will show the price, payment terms and the email address we will use when we need to contact you. It is important that both documents are checked carefully.

#### 4. Order Acceptance

On receipt of your approvals and (if required) your payment/deposit, we will accept the order and advise the expected delivery date.

#### 5. Pre-production checks

Prior to starting production we will e-mail you two sample images to make sure the factory has properly understood your order. Production will be held until we receive your approval to avoid delaying your order, we ask that you e-mail your approvals within 3 days of receiving each image. The first will be the factory proofs showing the sublimated colours and design. The second will show the detail of your logos. Please check each image very carefully as the designs you approve will be what is made. For a charge, if you wish to approve an actual physical "factory proof" rather than approve an e-mailed image, you should add 2 weeks to the standard lead-time. If you wish to approve a physical sample of the made up garment, you should add 3-4 weeks to the standard lead-time and allow a further 3-4 weeks from the time you confirm any further minor changes if you wish to receive another made up sample.

**Lead Time Guide - 8 weeks** from order acceptance

## OPTION 2

### MADE TO ORDER (“MTO”) TEAMWEAR

The simplest way to create teamwear in your own colour combination.

#### 1. Select MTO garments and choose colours

Tell us the garment code (ends with an S) of the garment you would like us to make and then choose from the MTO colours offered for that garment. We have standardised the names of colours across our range to help you choose garments that are made in similar colours. For example, if you are ordering a garment in “RED” it will be a similar shade of red to another garment available in “RED” but a garment with a different name; e.g. “MARS RED” or “SCARLET” will be a different shade. If ordering garments with different names, we recommend you ask us to show you swatches, before you place your order. If you are looking for colours to be very consistent across garments, we recommend you don't order garments with different colour names.

#### 2. Supply crests and logos in digital format

All artwork for crest/logos and sponsor logos must be supplied in digital format; preferably vector EPS files, PDF, AI/CDR formats or a DST file for embroidery. If these files are not available, there may be a re-draw charge. If you require personalisation (e.g. numbers/player names/initials) please send us written details for each size of garment you require.

#### 3. Approval of final digital proof and proforma

Once you have agreed the design and logos, we will ask you to approve a final digital proof (“FDP”) and a proforma. The FDP shows you the garment with all logos/crests, the quantity required by size and any number or name. The Proforma will show the price, payment terms and the e-mail address we will use when we need to contact you. It is important that both documents are checked carefully.

#### 4. Order Acceptance

On receipt of your approvals and (if required) your payment/deposit, we will accept the order and advise the expected delivery date.

#### 5. Pre-production check

Prior to starting production, we will e-mail you an image of each embellishment samples to make sure the factory has properly understood your requirements. Production will be held until until we receive your approvals. So as to avoid, delaying your order, we ask that you e-mail your approval within 3 days of receiving the image(s). Please check each image very carefully as the embellishment you approve will be produced on your teamwear.

## OPTION 3

### EMBELLISHMENT OF STOCKED ITEMS

The quickest way to create teamwear with your identity.

#### 1. Approval of embellishments

Select the garments you require with size and quantity.

#### 2. Supply of all crests and logos

Before we can accept an order for embellished stocked items, we need to get your approval for each embellishment we are to supply. If you want us to make garments with a new crest/logo, you need to send details in digital format; preferably vector EPS files, PDF, AI/CDR format or a DST file for embroidery (if these files are not available there may be a re-draw charge). To prepare the right embellishment detail, we also need to know for each garment you require: the product code (Stocked garments end with a +), the specific colour name, the expected range of sizes and what personalisation (e.g. numbers and player names/initials) is needed. It is not necessary to supply the exact quantities and personalisation by size at this stage but it will speed the process if you can. We will then send you an image of sample embellishments for your review and approval. We can advise current stock levels at any stage of the process but we can only confirm stock availability once the order is accepted. Samples of stocked items can be supplied but they are chargeable to you. They will be credited 100% if returned within 2 weeks and in perfect re-saleable condition. If returned samples can't be resold (eg. missing tickets/packaging), or are returned late, we will not be able to credit 100%.

#### 2. Check all garments are the correct sizes before embroidery

Once you are happy with your embellishments and told us what you want, we will check that there is stock and then ask you to approve a final digital proof (“FDP”) and a proforma. The FDP shows you the garment with all logos/crests, the quantity required by size and any personalisation (e.g. numbers and player names/initials). The Proforma will show the price, payment terms and the contact e-mail address. It is important that both documents are checked carefully.

#### 3. Order Acceptance

On receipt of your approvals and (if required) your payment/deposit, we will accept the order and advise the expected delivery date.. Stock availability can not be confirmed until the order is accepted, so to avoid the risk of stock-outs we ask that you approve the PDF/Proforma and make any required payment as quickly as possible.

**Lead Time Guide - 2-4 weeks** from order acceptance depending on time of year.

#### Embellished Stock Items

Sample early stage design template prepared for customer approval.

## OPTION 4

### STOCKED ITEMS (no embellishment)

Order garments from our stocked range without any embellishment for the quickest delivery.

**Lead Time Guide - 1 week** from order placement subject to stock availability and credit.

# Embellishment Services

---

**A complete embroidery and printing service is available from Gilbert for you to personalise your garments. Please speak to your Gilbert representative for more information.**

## 1. PRINTING

Digital printing services are available for your crest and sponsor's logos.

- Please supply vector images of the crest or logo in EPS, PDF or AI / CDR formats where possible.
- Whilst J-Pegs can sometimes be used, there will be a logo redraw charge if we cannot use the format supplied.
- We will apply text in Arial Bold unless you advise on alternative fonts.
- We will use Pantone solid coated colour references supplied by you. If not available, we will match the colours as closely as we can from the vector designs supplied.
- We will e-mail an image of a printed sample for your approval.

## 2. NUMBERING, NAMES AND INITIALS

- For personalisation will use Arial Bold font in black and white, unless you request an alternative.
- Font sizes have been standardised as noted below in order to fit our garments.
- Please supply by garment size full details of the name, number and initials required.

1 2 3 4 5 6 7 8 9 0  
A B C D E F G H I J

Numbers - 12/15/18cm

Names - 2.4/4cm

Initials - 2/3cm

## 3. EMBROIDERY

Embroidery of your crest and sponsors logos is available if preferred.

- If the logo/crest has already been set up, please supply the embroidery DST file with run sheet (specific thread colour sequence).
- If the logo/crest has not been set up, please supply the correct vector images in any of the following formats: EPS, PDF or AI/Cdr. There is set-up charge to create a DST file.
- Please advise size of logo and how they should appear on dark and light garments.
- Please advise Madeira thread colours if known. If not, standard Gilbert colours will be used.
- We will e-mail an image of your actual embroidery for your approval.

## FABRIC SUITABILITY

Please note that some fabrics in the Gilbert range work better with printed embellishment rather than embroidery. We will be happy to advise you on the most appropriate application method for each garment chosen.

---

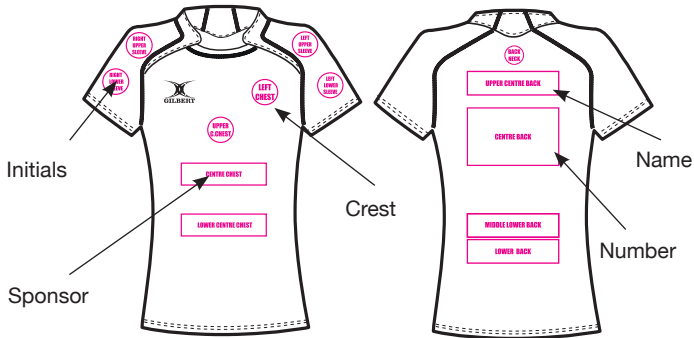

### PLEASE NOTE:

Gilbert cannot accept responsibility for the unauthorised use of any third party logos or images. Gilbert reserve the right to refuse to apply any name or logo that we consider to be offensive or unsuitable.

# Embellishment Positions

## MATCHWEAR - SHIRTS

All Gilbert match shirts will be branded as shown below.

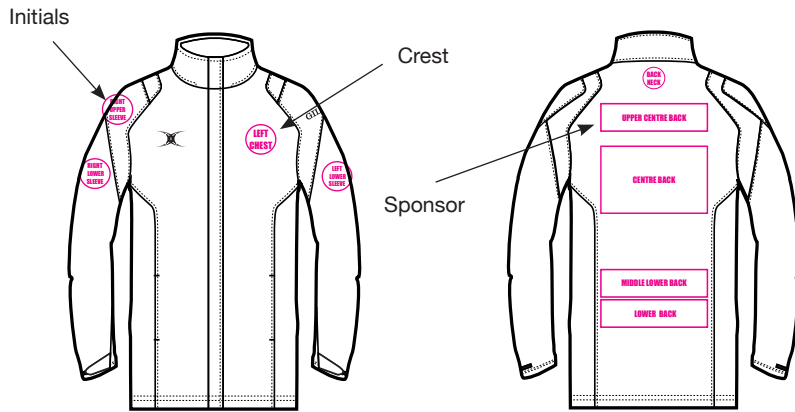

## MATCHWEAR - SHORTS

All Gilbert match shorts will be branded as shown below.

## TRAINING WEAR - JACKETS

All Gilbert training tops should be branded as shown below.

## TRAINING WEAR - TROUSERS

All Gilbert training tops should be branded as shown below.

### PLEASE NOTE:

For MTO hoodies, fleeces and formal shirts only, the Gilbert brand may be applied using a tonal colour in keeping with the garment. This is the only exception from the standard black / white application. Other logos may be added to the garments as design features, such as logo tabs sewn into the seams, or logos highlighting technical features of the garment.

# Glossary of Terms

---

## FIT

### **G-Base 1000 Compression**

Our performance-enhancing compression garments are specifically designed to provide targeted support and pressure to the muscles to stimulate circulation, increase the flow of oxygen and reduce lactic acid. Designed for the seriously hard working player, our compression garments can help improve performance during training and speed up recovery after the match.

#### **Engineered Gradient Compression:**

We're not just trying to squeeze you. Gradient compression has been engineered to provide the correct level of surface pressure to specific parts of the body. This enhances circulation and gets more vital oxygen to your active muscles – boosting your power, speed and stamina. Improved circulation also helps to reduce lactic acid build up and other metabolic wastes during an intense workout.

### **G-Pro Stretch 1000/1005**

The top of the range performance fabric is specifically developed for teams playing at the highest levels of our sports and is developed to be sublimated with your own design. It features a technical stretch structure, with a textured reverse to deliver our best moisture-management system. This fabric minimises restriction of movement, thus improving performance and comfort in play and works with your body during periods of exertion, offering no restriction to your movements-to improve performance.

### **G-Base 605**

Ideal next-to-skin layer for activity in cold weather. The brushed inside offers extra thermal protection for winter use.

### **G-Base 505**

Gives mild compression and support, without restricting movement. The fabric is lightweight and designed to keep the muscles warm and comfortable.

## WARMTH

### **G-Quilt 605**

Lightweight and versatile, this offers superb warmth without weight and is remarkably effective at keeping cold out. Quilted, synthetic insulation traps air in to keep you warm, even in the coldest weather.

### **G-Soft Shell 805**

Offering warmth without weight our soft shell fabric helps to keep the weather at bay. Made with bonded construction combining a water repellent membrane with fleece inner layer for warmth. The outer layer benefits from a water repellent finish to further help with keeping you dry.

### **G-Fleece 705**

The stretch in G-Fleece 705 allows the garment to move with the body. Stretch fleece is one of the most versatile fabrics available for use in sports clothing, thanks to its ability to provide warmth without weight.

### **G-Fleece 500/505**

Is a traditional fleece fabric with excellent quality and weight. An attractive smooth face with a brushed reverse, it offers superb comfort and warmth.

## COMFORT

### **G-Com 700**

A lightweight woven fabric, ideally suited for leisure-wear styles in a range of climates. Thanks to a soft peach-like feel. Specifically selected for track suits, this fabric is extremely popular with our professional athletes.

### **G-Com 500/505**

A more durable and traditional woven fabric featuring a soft peach-feel with a matt finish.

### **G-Pique 405**

Pique refers to a weaving style, normally used with cotton yarn, which is characterized by raised parallel cords or fine ribbing. It creates a fine textured surface that appears similar to a waffle weave. It is a soft and easy wearing fabric.

### **G-Heritage 200**

A traditional poly-cotton style jersey fabric. This has a heavier fabric feel and is durable and comfortable for match and training garments, where price is an important factor.

### **G-Heritage 105**

A traditional cotton jersey fabric, ideal for comfortable leisure T-shirts. Soft and easy wearing.

### **G-Suit 505**

Knitted fabric with brushed inside offers warmth without weight. It is very crease resistant and great for team kit.

---

#### **PLEASE NOTE:**

Where Stock Clothing uses the same fabric construction you will note that the descriptive title substitutes a numeric '5' for the last number. Example: **G-Lite 500** becomes **G-Lite 505**

### **G-Suit 605**

High sheen fabric with brushed inner surface offers warmth without weight. This classic fabric is ideal for sports track suits.

## **DURABLE**

### **G-Pro 500**

This fabric structure ensures tensile strength to withstand the rigours of match play. We can apply sublimation printing to the face or reverse of the fabric, making it ideal for reversible shirts. A popular choice for teams of all level.

### **G-Durastretch 1000/1005**

Ripstop construction of a lightweight fabric strengthened by weaving in a stronger yarn, which prevents any small holes or tears from spreading. Durable and hard-wearing, its added elastane ensures an excellent fit.

### **G-Dura 500/505**

Features top quality eyelet construction and a strongly knitted fabric. This provides a full air-flow whilst also ensuring maximum durability, through high tensile strength.

### **G-Classic Stretch**

Combines a hard-wearing cotton with elastane to result in a fabric that is both durable in wear but also comfortable.

### **G-Classic 400/405**

A high-tensile tear strength makes this fabric light-weight but extremely durable with excellent resistance to abrasion – important for hard-wearing garments where durability is important.

### **G-Classic 200/205**

Is a traditional cotton drill fabric that is tough and durable, ideal for both rigorous contact training and match-play, where price is an important factor.

## **LIGHTWEIGHT**

### **G-Lite 700**

A light-weight mesh that features a honeycomb construction with a softer, lighter feel. It has excellent drying properties for added comfort. Suitable for training and leisure needs.

### **G-Lite 600/605**

An extremely light-weight, soft-touch fabric featuring a highly-breathable construction that allows moisture vapours to flow through. This acts to wick perspiration away from your skin, hence minimising perspiration and keeping your body cool and dry.

### **G-Lite 500/505**

A breathable fabric construction that allows moisture to flow through. Actively wicks perspiration away from your skin, keeping you cool and dry.

### **G-Lite 400/405**

A specially designed wider mesh weave for maximum ventilation, in those areas where your body needs it most.

### **G-Mesh / G-Mesh 400**

A specially designed wider mesh weave for maximum ventilation in those areas where your body needs it most.

## **WATER RESISTANT**

### **G-WP 805**

A fully waterproof and breathable fabric with water repellent finish on the exterior that is guaranteed to keep you dry, whatever the weather. Garments have added taped seams, which further aids water proofing on garments.

### **G-WP 750/755**

Developed to give good water resistance and breathability to keep you dry and comfortable. This protects from the elements while out on the pitch and also for everyday use.

### **G-WP 500 & G-WP 500 Revolution/ 505 Revolution**

A modern, high tech, woven taslon fabric which is strong, durable, water-resistant and wind-resistant. Ideal for outerwear garments suitable for training in, every day of the week and offering reliable protection from the weather.

---

## **THE RIGHT TEMPERATURE TO WASH CLOTHES**

The golden rule, before you start any load of laundry, is to check the care labels on all your clothes. This will give you an idea of the absolute maximum temperature you can wash your garments, and help you avoid disaster. It is always worth noting that bright and dark colours prefer cooler, quicker washes.

Higher temperatures washing encourages the loss of dye and fade black and bright clothes by opening up the fibres, so a warm or cool wash is your best bet.

To set dye, try using white vinegar instead of detergent when you wash new clothes for the first time. After the first wash, using a good detergent aimed at low temp washing will ensure you get a great clean even at lower temperatures.
