## touch the future

May 31 - June 10, 2016  
Dusseldorf, Germany

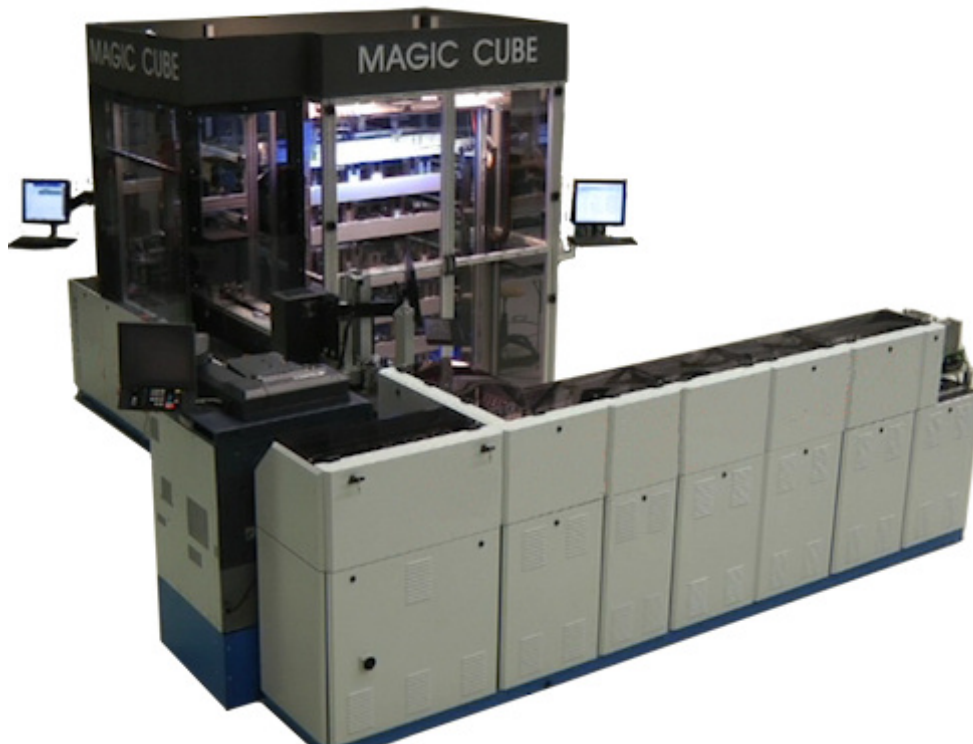

drupa

no.1 for print and crossmedia solutions

## UFE and Otto Kuennecke at Drupa 2016

It's Drupa time again. Four years have flown by and the world's biggest print and media exhibition is back in Dusseldorf. All kinds of new printing technology is on display for the 11 day show. If you can't find something new and exciting within the halls of drupacity, you're just not trying!

Otto Kuennecke will be exhibiting their MAGIC CUBE featuring a CASSilo secure card mailing system. We will be in **Hall 8b** on **Stand A65-1**, sharing a stand with Konica Minolta, our partner for inline colour printing and higher-volume mono applications.

### What is the Magic Cube?

The Magic Cube is Otto Kuennecke's award-winning system for automatic workflow in a perso bureau. It's a fully inline system for hands-off production including a vault, perso and inline packaging / mailing. However, all components can be supplied individually. The vault, for example, can be used for the automatic storage and retrieval of documents with 100% quality and audit control. It might also be used

for bottles or contact lenses - that's why we're taking it to Drupa. We believe that there are many more applications for this kind of technology.

---

## The Altstadt - Altbier und Spargel!

No trip to Drupa would be complete without a visit to the Altstadt. The old town of Düsseldorf is known as "the longest bar in the world". You don't have to drink to enjoy a night out in the Altstadt, although it would be a shame not to try one of the many pubs and breweries (keep to the Altbier and stay away from the Killepitsch - that's nasty stuff!) There are also many restaurants which, at this time of year, will be serving local asparagus. Run or cycle the beer off the next day along the river Rhein!

If you would like any further information or have any questions, give me a call on 07778 542 137.

Kind regards,  
Lindsay.
