

# Clicker

## The friendly camera control

### Click & Tap control

Set your camera to WATCHING or SLEEPING mode in a single Click & Tap step.

### Completely wireless

Secured wireless communication with the camera allows hassle-free installation.

### Visual and audible notification

The Clicker uses LEDs and beeper to signalize successful operation.

### Ideal for families...

Get everybody their personal tag. Four tags are enclosed with the Clicker and can be easily personalized.

### ... and small businesses alike

Up to 20 tags can be assigned to a single camera. Online accessory administration is available at [www.jablotool.com](http://www.jablotool.com).

**EYE-02 and EyeSee Compatible**
