

Matrix Bio

Electronic Fingerprint Lock with Thermal, Tamper Proofed Line Sensor.

Applications: Safes, Keysafes, Weapon Lockers, Data Safes, Fire-proof Safes and ATMs.

FEATURES

3 Master Fingerprints	Rake of 15°
97 Manager Fingerprints	ATMEL finger-chip™ line sensor
Authorisation of opening fingerprint only by master finger	400 MHz pulse rate
Thermal, tamper proofed line sensor	Supply voltage: 8 – 24 VDC
Fingerprints can be read in despite small injuries	Power consumption: Approx. 1 W
Fingerprint storage	Operating temperature: -20 °C to +85 °C
In the case of power failure the stored data remains saved	Humidity parameters: Up to 95 % relative humidity
Front mounting	Power supply: Mains adapter
Made from die-cast zinc: satin chromed, dim chromed, golden
