

AEESPS, 2019

1ST Annual Electrical Engineering Student Project Symposium

Aim of the AEESP Symposium

The aim of the 1st AEESPS is to bring together

undergraduate and graduate students to present their latest achievements in senior projects and research results related to the major field of Electrical Engineering (EE) and other correlated disciplines. This symposium is an opportunity to encourage EE students to share innovative ideas, research findings, and practical experiences gained so far in their study endeavor.

Our ambition is that this symposium will provide significant contributions to knowledge in research areas for students and faculty members who are interested in the field of electrical engineering.

المؤتمر السنوي الأول لمشاريع طلابية
الهندسة الكهربائية

Date: June 20, 2019

Venue: Dr. Mahdi Saleh hall at the
College of Engineering,
University of Kentucky

The Department of Electrical Engineering is hosting the first annual EE Student Poster Symposium.

The event will include:

- **Opening session**
- **keynote speakers' sessions**
- **Poster session**
- **Best Poster Awards**

Keynote Speakers

Associate Prof. Aaron M. Cramer
University of Kentucky, USA

His research interests include Electric power systems and renewable energy.

Prof. Sattar B. Sadkhan
University of Babylon, Iraq

His research interests include, Wireless Communication and Information Security.
