OUR SERVICES

Whether it's for residential, commercial, construction, manufacturing or industrial use, we can provide a variety of disposal bins to meet your specific waste disposal and recycling requirements throughout the Lower Mainland.

At Fleetwood, we are committed to helping you cut costs on waste disposal and keeping recyclable material out of landfills. That's why we strive to offer a flexible pricing structure to fit your budget and needs.

BIN RENTALS

We offer our customers a variety of efficient, effective and reliable disposal bins for rent in the Lower Mainland.

We accept a wide variety of materials for waste disposal and recycling and we are diligent in ensuring that recyclable materials are sent to the appropriate facilities. We offer bins from 8 yards to 40 yards in size to accommodate large amounts of waste or recycled material. Our team of dedicated professionals will deliver the bins to your worksite and will arrive promptly to remove the filled bin, at your convenience.

WASTE DISPOSAL

Fleetwood offers fast, effective and reliable waste and junk removal services for the Lower Mainland. Our waste disposal service is perfect for home renovations, construction projects, spring cleaning, moving homes and much more!

We offer commercial, construction, industrial and residential waste removal services. We also have specialized bins for landscaping and other services.

Waste disposal is a cost-effective and stress-free way to dispose of your trash and recycling so give us a call today!

RECYCLING

Every day, more and more recyclable material continues to make its way into landfills.

As a waste disposal company, we believe that it is our responsibility to ensure that recyclable material does not end up in landfills. That's why we're offering our customers specialized bins for cardboard and other recyclable materials and we will ensure that these materials are dropped off at the appropriate facilities to be recycled, cutting down on landfill waste.

WASTE CONSULTING

With over 35 years of experience, Fleetwood Waste Systems Ltd. is committed to helping our clients find innovative and cost-effective solutions for their waste disposal and recycling needs. To help our customers reduce their waste and discover better ways of waste management, our highly dedicated and trained waste consulting team will conduct free assessments of your waste and recyclable materials and help you to devise a waste reduction and recycling plan for your home or business.

Our Waste Consulting Services Include:

- Waste diversion and recycling plans
- Waste audits and assessments
- Waste reduction and cost reduction initiatives
- Monitoring regulatory compliance

Successful waste reduction and recycling initiatives start with a plan. Our team of dedicated and trained waste management professionals are always available to help you discover and build a waste reduction and recycling plan that fits you and your business.

LEED RECYCLING PROGRAM

For every bin returned with waste and recyclable material, we can provide a report which will confirm how much percentage of the garbage is recycled, how much is sent to landfills and a list of recovery centres where the garbage is disposed in order to help general contractors meet their LEED requirements.

** We ship all our loads to recycling facilities .*

ABOUT FLEETWOOD? WASTE SYSTEMS LTD.

We are a waste disposal and bin rental company based in Vancouver, BC. Initially named Fleetwood Disposal Ltd. when it began in 1971, new management renamed the company to Fleetwood Waste Systems Ltd. in 2008 to better represent the complete waste management and reduction solutions that the company offers to our valued clients.

We provide the Lower Mainland and Metro Vancouver with prompt and professional waste disposal and recycling services. Our success is built on exemplary customer service, focusing on reliability and quality. We provide our customers with friendly, on-time and efficient service and we ensure that all customer questions and inquiries are taken care of in a timely manner. Fleetwood Waste Systems Ltd. is 100% BC owned and operated.

SENIOR MANAGEMENT

38 years of combined experience has built a network of people who firmly believe in and trust Fleetwood's services.

We are a team that has extensive knowledge of the industry and that shares the vision of a company that provides its customers with reliable and effective service at competitive rates while honoring its commitment to environmental stewardship.

We continually review performances of our products against initial plans to achieve a more efficient and effective service and are dedicated to ensuring that our budget allows us to offer outstanding service to clients.

We are consistently thinking of new innovative ways to meet the needs of our customers, to help them become more cost efficient and more environmentally friendly and we take into account customers who may have special requirements and do our best to fulfill them.

We are dedicated to providing our customers with fast, reliable, effective and timely service and helping to solve any issues or questions they may have.

MISSION AND VALUES

Our focus is on providing our customers with quick, reliable and timely waste disposal and recycling services and sustaining our environmentally friendly waste disposal and recycling practices.

We ensure that our team of waste management consultants provides our customers the highest standard of professionalism and service.

CORPORATE POLICIES

We are proud of our continued commitment to help our communities and our customers become more environmentally friendly and more cost-effective when it comes to waste disposal and recycling. We strive to continue to maintain the highest standards of environmental sustainability and cost-effectiveness for our communities and our customers.

ENVIRONMENTAL RESPONSIBILITY

At Fleetwood, our focus is on recycling and material recovery, not sending materials to landfills. We make every effort to operate in an environmentally friendly manner, including recycling each and every one of our disposal and recycling bins. All the drywall, cardboard, clean wood and concrete we received from our customers is 100% recycled.

In an effort to continue our dedication to environmental sustainability, we supply to our clients a list of unacceptable materials in our disposal and recycling bins.

HEALTH AND SAFETY

We maintain and operate a safe and healthy working environment for all our employees and customers. Our skilled drivers and waste management consultants have received the highest standard of health and safety training and ensure that unacceptable materials are dealt with according to safety regulations and that bins that are picked up or delivered are placed in safe areas and made of the highest quality of steel for safety and environmental purposes.

COVERAGE AND ACCREDITATIONS

We are fully bonded and insured with Commercial Liability Coverage and with the WCB, ICBC and General Liability Insurance.
